Good practices of data collection and reporting on FEAD-funded activities in your country

(1) FEAD IT system (EPLSAFIS)

The screenshot shows the homepage of the EPLSAFIS website. At the top, there is a logo for 'EUROPOS PAGALBOS LABIAUSIAI SKURSTANTIEMS ASMENIMS FONDAS' and the European Union flag. The main content area features a large image of three red apples with the text 'DIDELI DALYKAI prasideda nuo mažų dalykų'. To the right of the image, there are two blue buttons: 'Prisijungti prie duomenų mainų svetainės' and 'Prisijungti prie vidinės svetainės'. Below these buttons, the text reads 'Europos pagalbos labiausiai skurstantiems asmenims fondo informacinė sistema' and 'Naudotis EPLSAFIS gali tik turintys tam teisę naudotojai'.

(2) Family social support information system (SPIS)

The screenshot shows the homepage of the SPIS website. At the top, there is a logo for 'SPIS SOCIALINĖS PARAMOS ŠEIMAI INFORMACINĖ SISTEMA'. The main content area is divided into several sections. On the left, there is a section for 'GYVENTOJAMS' (Residents) with the text 'Elektroninės paslaugos' and a 'Prisijungti' button. Below this, there is a list of services: 'Dėl nemokamo maitinimo priešmokyklinukams, pirmokams ir antrokams', 'Apie vienkartinę išmoką vaikams (dėl COVID-19)', and 'Informacija dėl Šeimos kortelės'. On the right, there are three sections for 'SPECIALISTAMS' (Specialists): 'SAVIVALDYBIŲ SPECIALISTAMS', 'ŠVIETIMO ĮSTAIGŲ SPECIALISTAMS', and 'KITŲ ĮSTAIGŲ SPECIALISTAMS'. Each of these sections has a 'PRADĖTI DARBĄ' button and a right-pointing arrow.

The personal data of the target group **is not** entered and stored in EPLSAFIS

SPIS data

The personal data of the target group is entered and stored in SPIS

Why we use SPIS?

- ▶ Officially all municipal administrations are partner organizations in FEAD projects
 - ▶ Persons wishing to receive FEAD support must apply to their city or district municipality administration or local eldership (fill an application form for FEAD support)
 - ▶ Staff of municipal administrations / elderships are responsible for evaluation of applications for FEAD support (criteria – monthly income)
- ▶ Staff of municipal administrations or local elderships are responsible for making lists of FEAD beneficiaries (before each FEAD support distribution)

Structural target group survey

Twice during 2014-2020 programming period:

- In 2017 (external evaluators)
- In 2022 (external evaluators)

All questionnaires for PO and target group are prepared according Commission implementing regulation (EU) 2016/594

+

Additional questions which are important for the LT FEAD responsible authorities

Challenges related to counting as main reporting method

No big challenges for general reporting:

- ✓ Created individual forms
- ✓ Information is checked by the responsible MA and / or IB staff
- ✓ Information is checked according supporting documents

Difficulties could be in the survey, where external evaluators should trust on target group answers

Specification of using surveys: risk of non-response and biased answers

Surveys are conducted by survey experts with many years of experience (independent public opinion and market research institution)

A large proportion of interviews are conducted by telephone (no need to hurry, a person may be more open, etc.)

The main expected changes of FEAD data collection

There were no significant changes to the FEAD data collection during the 2014-2020 programming period

Changes are planned for the new programming period 2021-2027, as the physical distribution of FEAD support will be replaced by the e-system (payment of funds to social cards)
